With effect from 14 October 2020, balancing charges may now arise in respect of specified intangible assets acquired on or after 14 October 2020 regardless of when a balancing event occurs.

This will apply to disposals made on or after 14 October 2020.

Revised Entrepreneur Relief

This relief will be amended so that an individual who held at least 5% of the shares in a qualifying company, or group of companies, for a continuous period of any three years qualifies. All other qualifying criteria remain unchanged. This will come into effect from 1 January 2021.

- €30,000 (up from €20,000)
- 10% (up from 5%) of the purchase price of the new home or of the completion value of the property in the case of self-builds
- the amount of IT and DIRT paid over the four years prior to making the application.

This enhanced relief has been extended to 31 December 2021.

Value Added Tax (VAT)

VAT Rate

The supply of certain goods and services to which the rate of 13.5% currently applies will be liable to VAT at 9% from 1 November 2020 until 31 December 2021. This will mainly affect the supply of restaurant and catering services, guest and holiday accommodation, and various entertainment services such as admission to cinemas, theatres, museums, fairgrounds and amusement parks.

VAT at 9% will also apply to hairdressing and certain printed matter such as brochures, maps and programmes.

The 9% rate applying to magazines and newspapers and to the provision of sporting facilities will remain unaffected.

Flat-Rate Addition for Farmers

This flat rate is increased from 1 January 2021, from 5.4% to 5.6%.

Excise

Tobacco Products Tax (TPT)

TPT rates are increased with effect from 14 October 2020. The increase amounts to 50 cent, inclusive of VAT, on a packet of 20 cigarettes, with proportional increases on other tobacco products. Minimum Excise Duty (MED) for cigarettes is being raised to €414.24 per 1,000 cigarettes with effect from 14 October 2020. This means that all

packs of 20 cigarettes sold at, or below, €11.50 will be subject to €8.28 in Excise Duty.

Carbon Taxes on Energy Products

These rates will increase each year for the next ten years, based on increasing the amount charged per tonne of CO₂ emissions from €26 to €100.

Rates of Mineral Oil Tax (MOT)

The first MOT increase, based on charging an additional €7.50 per tonne of CO₂, applies from 14 October 2020 to:

Rates of Solid Fuel Carbon Tax (SFCT)

The first SFCT increase, based on charging an additional €7.50 per tonne CO₂, will apply from 1 May 2021 to:

Vehicle Registration Tax (VRT)

Worldwide Harmonised Light Vehicle Testing Procedure (WLTP)

From 1 January 2021, VRT on category A vehicles (passenger cars including SUVs) will mainly be calculated using the CO₂ emissions produced under the WLTP measuring system. This replaces the New European Driving Cycle (NEDC) measuring system. It will still be possible to register cars measured under the NEDC system by applying a conversion factor prior to registration.

The rates of VRT for category A vehicles will also change. These details will be available on www.revenue.ie shortly.

Nitrogen Oxide (NOx) Levy

The NOx levy that is applied to all VRT category A vehicles (passenger cars, including SUVs) will change with effect from 1 January 2021. The levy will be charged cumulatively.

NOx emissions (NOx mg/km)	Amount payable per mg/km
The first 0-40 mg/km	€5

The next 40 mg/km or part thereof up to 80 mg/km	€15
The remainder above 80 mg/km	€25

Relief for Hybrid and Plug-In Hybrid Vehicles

Relief for these vehicles will expire on 31 December 2020 and will **not** be renewed.

Relief for Electric Vehicles (EVs)

The €5,000 relief is to be retained in full for all EVs with an open market selling price (OMSP) of up to €40,000. Above €40,000, the relief will be reduced by 50% of the OMSP over €40,000. The relief will no longer be available where the OMSP is €50,000 or more.

Debt Warehousing

Debts that are warehoused are subject to 0% interest for 12 months. After this 12-month period, a reduced interest rate of 3% per annum will apply.

Temporary Wage Subsidy Scheme (TWSS) Liabilities

An employer who has received excess amounts of temporary wage subsidy is obliged to refund the excess to Revenue. An employer may be unable to repay the excess immediately, due to the impact of Covid-19 on their business. The existing tax debt warehousing scheme will be expanded to include these repayments.

Income Tax (IT) 2019 and Preliminary Tax 2020

The debt warehousing scheme will also be expanded to include taxpayers who self-assess for IT. The scheme is available if, because of the impact of Covid-19, they are unable to pay their IT liabilities 2019 and Preliminary Tax 2020. If filing through ROS, the normal due dates that would apply to these taxes are 31 October 2020 or by 10 December 2020, respectively.

If income for 2021 is also at least 25% lower than income for 2019, the balance of 2020 IT and Preliminary Tax for 2021 can also be warehoused.

Covid Restrictions Support Scheme (CRSS)

This scheme is aimed at businesses which are impacted by COVID-19 restrictions.

Qualifying businesses can apply to Revenue for a cash payment, representing an Advance Credit for Trading Expenses (ACTE) that are deductible for IT or CT purposes. Payments will be calculated on the basis of 10% of the first €1m in turnover and 5% thereafter, based on average VAT-exclusive turnover for 2019. This will be subject to a maximum weekly payment of €5,000.

The scheme will generally apply when Level 3 or higher restrictions are imposed in line with the Plan for Living with COVID-19. It will run from 13 October 2020 until 31 March 2021.
